

July-August 2020... current events commentary and links: PDF format.

[See website for online posting.](#)

This issue is a combined July-August 2020 issue: I include the following subject content, with supporting articles and links.

- 1) Special report on “Antifa” and “Black Lives Matter,” textbook Marxism on full display in USA.
- 2) The Leftist (Marxist) manipulation (near control) of the Democratic Party.
- 3) Update: My personal observations on the Covid-19 issue; more deception and false claims.
- 4) Special update on the Trump Middle East “Deal of the Century,” dividing the land.
- 5) My thoughts on “cashless” society and its role in end-time events

My commentary makes reference to articles believed to be accurate, intellectually honest, factual and informative... I share, herein, news and general information from other websites and sources. I DO NOT share this as a subtle or covert attempt to express my opinion, merely to say “this is happening and I think it’s important to be aware of it.” In this regard, just because I share news or information from other sources doesn’t mean that I think you should agree with me, or it; test everything by the Bible as a source for truth.

**The World is a Dangerous Place Part II ([Part 1 link](#)): by John Johnson 7-26-2020**

Since the last current events posting, a lot of things have snowballed into more intense and volatile situations... in the state where I live, Illinois, the mayhem in Chicago has unprecedented weekly killings and shootings, especially on weekends... as we speak, federal DHS law enforcement is being sent to help quell the violence. Similar problems continue to escalate in Baltimore, Philadelphia, St Louis, Detroit, Minneapolis, Atlanta, Los Angles, and Louisville...

*Louisville, heavily armed black militia march, 7-25-20*

Portland and Seattle have only gotten further out of control with the Marxist staging daily protest and violent attacks on the police and no end is in sight... Mainly because the local leftist Democrat political authorities running these cities are complicit with the street thugs that want to overthrow law and order, especially focused to attack the President, and to attempt to disrupt the upcoming elections in November. This activity is rooted in the leftist Democrat's assault against "Candidate Trump," and has been revved up following their unexpected defeat by President Trump in 2016...

Ever since the Trump administration took office, there have been avalanches of false charges and policy blocking by corrupt leftist Judges, and enormous mainstream media (MSM) barrages of fake news in print and in television newsrooms, plus unending attacks on the President by Fakebook and Twitter and their offsprings. Their surrogate so called "fact checker" group over at Media Matters, works tirelessly to uphold the stream of sewage flowing from their "free press," First Amendment "rights," and to discredit or silence any and all opposing views and venues.

The coming transition out of liberty and opportunity to realize the "American Dream," was started mainly with the disgraceful activities of a traitorous enemy of the US Constitution, Barack Obama.... Who instituted divisive politics and racism like none other before him.

His post-election, perpetual and insidious gerrymandering of policies and interruptions of the peoples work, by their duly elected and appointed officials has no precedent... no other ex-president has ever caused such troublesome backroom coaching as he has, and continues to do. I don't think any reasonably sane and thinking person can remotely believe that the assault on the Trump administration is happenstance and coincidence...

The Obama backroom squad has worked relentlessly since 2016 to facilitate dozens of cells of "community organizers" to support this cabal of evil in major population centers around America. Obama's "non-elected" surrogates, that remain in the government work force, occupy multitudes of Federal and State government civil service positions all around us. This is the face of the deep state... but their reclusive Billionaire Globalists controllers are not so easy to identify or bring to accountability in specific terms.

Most of the police and law enforcement agencies are at odds with the leftist Democrats in local positions of governance, who collaborate with selected pet Judges and local Prosecutors, who also support the attempted discrediting and defeat of President Trump... As well as refusing to charge the violators the Police arrest for rioting and destruction of property and injury to law enforcement persons. These same anarchists have further mobilized to defund Police and other law enforcement departments; and [The National Association of Police have switched their past support of the Democrat party to now back President Trump...](#) As I have said before, it is a long time until November, when measured in terms of street violence and its planned and determined agenda to destabilize our society.

For your information concerning the details of the powers and forces behind this Marxist movement, Antifa, Black Lives Matter, etc., and where they come from and their history and past activity, and their modern day agendas, the following links will help you understand these destructive agendas. YOU are their target... to be silenced or eliminated... there are no other options in their eyes. They intend to seize complete power and establish a "new society," there is NO place in their agenda to "reform" anything, they only intend to destroy, tear down and eliminate historic remembrance of freedom and capitalists societies, worldwide. Marxism is terminal, there is no cure for it, and it will never peacefully coexist with any freedom or religious people of faith, both are an anathema to them. For the most part, this fanatical and extremist agglomeration of misfits and radicalized perverted vermin have infested the main core of the Democrat party and it intends to fully control it one way or another; extortion, fear, violence, intimidation and monetary corruption are a few ways they will do this... both in the streets and at the ballot box. Tragically, the corrupt news media that is expected to be a watchdog for liberty, justice, law and order, has joined them by being bought years ago by their Marxist planners. This no difference than Lenin naming the Communist news agency "Pravda" (truth in Russian). This gives better understanding to the notion that, "the pen is mightier than the sword." We see its footprints everywhere... and the carnage and devastation in its wake.

Where did it all Start ? (Berit Kjos) *Strongly suggest you read this first.*

### **The Pandemic assault on science and common sense... perhaps the greatest danger to us?**

In addition to the above reported street level violence, the Pandemic cabal that continues to bombard us hourly, using their tightly controlled main stream media (MSM) and social networks of Fakebook and Twitter and their off-springs (who censor and block opposing views and scientific rebuttals to their invalid claims and outright lies concerning the virus' real threat), pour out fear and panic to those susceptible to their claims...

As it is commonly said, "there outta be a law against this criminal activity." However, even with piles of publications from health professionals, and their professional organizations, the "powers that be" simply run roughshod over the constitutional rights of people everywhere... some places (States and Cities) worse than others. The outrageous and unmitigated gall that these evil people have is "in your face," and unrestrained oppression against anyone disagreeing with them... This has spawned a certain group of people who will attack you if you don't wear a mask or agree with their thinking on social distancing.

One of the great dilemmas, Pandemic driven, now facing many families is that of how schools will function this fall. Some teachers unions and leftist thinkers (again Democrat party hooligans) have voiced opposition to some of the plans to open schools and are clamoring hostilities about any attempt to force them to do so. Most of them are being paid for not working... imagine that. Even worse, the upcoming agenda to demonize white people will be implemented into the curriculum for young children; additionally, the perverted sex gender LBGTQ curriculum will be included as a "must include," subject that your children will have to study and "understand."

A final point I wish to make concerning the turbulence the overblown virus threat has caused is that of our national economic, and faith community's stability... the devastation this thing has caused in the

bread basket of American business (small business and independent contractors) is immeasurable. Millions of honest, hard working people, who's life work and savings have been put into their business and the services they render, will never be recovered; and worse, their inheritance that they intended to pass on to their children will never be. Likewise, the damage these overreaching deceiving "public authorities" have done to the religious section of a free and faithful people is beyond comprehension. One of our national heritages, freedom of worship and expression of faith has been severely wounded, and will, in my opinion, never recover to a "normal" state... the devil is still laughing.

What does all this mean? To me, it means we have been duped by the biggest and most devastating deception and hoax of our nation's history.

Since before the Trump victory in 2016, nefarious and evil plans and treasonous activities have been

employed to fracture the nation... the present day civil upheaval and false virus threats and disgusting mask regulations are nothing less than antagonism to keep everything unbalanced and gain traction for breaking down the Republic. Mending it's breaches, if possible will be a daunting task... especially with the MSM's complicit lies and distortions supporting the Marxist. The younger generations, average age in America is reportedly 37, have had too much false history, and immoral values and negative political bias, instilled into their thinking by leftists educators, and they are being betrayed by the ideological leftists Utopian promises that will eventually destroy them, as it always has in every other Marxist

revolution. We previously reported, above, on Marxism and its history and it's plans to destroy the American Republic... unless revisionist write our national history, honest historians will chronicle these true facts regarding the leftists assault on a once good and free people, and the darkened chapters of these times.

Following are updates on the Pandemic, and its end game to vaccinate us all... where will that lead?

### **One of the most dangerous places on planet earth... Middle East and its turmoil.**

We have been awaiting the implementation of the Israeli annexation of west bank territories... which is part of the highly touted Trump “Deal of the Century.” The problems that Israeli politics are presently experiencing, along with Trump’s home front challenges, are complicating the advancement of the planed phased-in initiative. Delays are presently causing significant re-posturing of alliances and affording time for adversarial interest to strengthen their opposition hopes. Much of this is related to the dual partisan leadership between Benjamin Netanyahu and Benny Gantz, and the alliances they are trying to satisfy. The key points for the plan [can be seen here in a Jerusalem Post article.](#)

Aside from the likely volatile eruptions that any progress on the implementation of the plan may foment in regional Arab-Israeli relationships, I think it is very possible (if not likely) that if such a plan is really implemented, that there may be a divine response, that will be, unfortunately, very detrimental to American national interest. The past tinkering with “God’s Land,” and attempts to promote dividing “God’s Land,” exhibits a clear and distinct correlation between that geopolitical activity and natural disasters, etc. One specific book, by William Koenig, “[Eye to Eye: Facing the Consequences of Dividing Israel.](#)” has remarkable documentation that seems undeniable, unless one thinks everything is an anomaly or a coincidence. Outright denial of the facts would make such a person more credible than hiding behind bias, and playing stupid. Another thing is in play, and that is the last days in which we are living... more and more dramatic activity, as prophesied, will be occurring in and around Israel...

God clearly warns nations that dividing (parting) His Land will have serious consequences. Joel 3:2, in particular:

“I will also gather all nations, and will bring them down into the valley of Jehoshaphat, and will plead with them there for my people and for my heritage Israel, whom they have scattered among the nations, and parted my land.” KJV

This is clearly a last days reckoning warning, and it must not be taken lightly. And, because of the past record of cause and affect, as reported by Koenig in his “Eye to Eye,” book... we must ask the question, “has our past meddling with parted land deals concerning Israel, been the root cause of so many ‘dividing issues’ in our national society and all the turmoil we are now dealing with?” Will this grand scheme dividing of Israel’s land (God’s Land) be the proverbial straw that breaks the camel’s back? What if God says, “enough is enough,” and allows a catastrophic event, such as a major earthquake along the New Madrid fault in central US (along Mississippi river basin), and literally divides our land because we have not paid attention to WHO is in charge... we really are a fickle bunch of heathens at times. I think we should be praying this does not happen.

Here are some related articles on this issue... Dividing God’s Land.

**Other geopolitical complexities of significance that will destabilize the Middle East.**

The Pandemic and the world-wide response and attention focused on it, I think, has overshadowed activity of a powerful enemy of Israel (and Europe and America) being able to progress its evil scheme to enslave multitudes of peoples if it is successful completing its plan to revive the Islamic State, the Caliphate (former Ottoman Empire)... Turkey’s President Recep Tayyip Erdogan, solidly in charge of Turkey, makes no apologies for his intent to bring Islamic hegemony,

namely Turkey, back to its “former glory and rightful place.” This is not idle talk, it is the main agenda. The recent act of turning Istanbul’s sixth-century Hagia Sophia back into a mosque and declared it open

for Muslim worship, in disregard for world opinion, is just one of his “stop me if you can,” gestures. The promise to make this one of many Muslim victories, on their pathway to Jerusalem, to take the Temple Mount from the Jewish state is no idle threat either. Erdogan has many vassal regions in Europe, for example in the Netherlands they wield significant political influence when he dials them up for action. He presently terrorizes Cyprus (controls half of it), and is putting pressure on Greece as we speak. He runs roughshod over the border into Syria and significantly impacts military outcomes there. He relentlessly pursues elimination of the Kurds (our only faithful US ally in the region, except Israel) and is likely to once again bring great misery upon the Armenians (whom the Turks yet today deny the [Ottoman's role in the genocide of 1915](#)). Erdogan has provided ISIS gateways for Islamic State fighters from all over the world into and out of combat theaters in Syria, Iraq and other places. He has provided their weapons and gives aid to their wounded and is supporting their families. He claims to be a NATO member, but in reality, that is more than dubious... unfortunately, the US has at least two military bases there... About 50 American nuclear bombs are stored at Incirlik air **base** in southern **Turkey**, the easternmost **military** facility of the US air force and NATO Command in Europe. [Fox News claims Turkey is holding these Nukes hostage](#)... consider that.

I have provided a very informative video below for you to watch, and I think you really need to consider what this Biblically founded message is about. It is a stunning observation and needs to be watched for future implications... I think it fits into last days Bible prophecy, time will tell.

Turkish Caliphate Rising—The Revival of the Original Islamic State-(Dalton Thomas-YouTube)  
<https://www.youtube.com/watch?v=9z9uxH8euLs>

To further complicate things, there have been increasingly dangerous sorties between Israel and Iran, and several of their surrogate terror organizations... hardly a day goes by without some kind of shooting and bombing events. It is said Iran has sufficient nuclear materials to make a deliverable atomic bomb... Israel has vowed unequivocally that they will not allow that to happen... what's next? There has also been considerable Cyber warfare involved as well. In the midst of all this, China and Iran are working on a joint military alliance, which includes China getting deep water ports in Iranian coastal waters and they talk of building an island fortress like the one China built in their region. China also continues to build military bases in Africa...

Iran and China working on a joint military alliance  
<https://www.gatestoneinstitute.org/16252/iran-china-military-alliance>

And Russia has been quietly working with Syria to further its naval presence in the Mediterranean. All of this points to future problems for Israel... sounds like the game-board is being set for the final push against Israel. These times, considering these major events, look like the “time of Jacobs troubles” spoken of in the Bible as concerning Israel’s hardships in the last days:

“Alas! for that day is great, so that none is like it: it is even the time of Jacob's trouble, but he shall be saved out of it.” (KJV Jer 30:7)

**Some end-times issues that will likely affect us in the near future:**

Much has been reported on UFO's and "space aliens," both by reputable media and by sci-fi pundits, that have made flying saucers their life's pursuit... some of the later with a bit of legitimacy. In any event, many Christian writers believe in a coming deception by "inter-dimensional" beings, not extraterrestrial, (demonic in mission) who/that will claim to be "returning" to their creation to fix its dismal condition. In such an event, I expect most will consider them to be extraterrestrial, and that they are much smarter than us and we need to work with them.

*The Vatican's L.U.C.I.F.E.R. Telescope. (Credit: NASA)*

Now some of you may not be familiar with this, but the Vatican has a specific division of deep space engineers and astronomers who own powerful telescopes and star tracking systems to map galactic bodies and their movement. This expectation of "visitors" is no joke to them. Tom Horn, an expert on this subject, has written books on all this. Anyway, my point is that I believe this ties into an end-time deception narrative (joined with other deceptive activity the globalists will employ). There is a good article [here](#), that you may want to read.

Dr Gavin Finley of "[the end-time pilgrim](#)" website has written a very informative article on "The Great Apostasy," warning about the falling away of believers at the end of the age. The Bible tells us that those who "endure until the end will be saved." Most of us don't like that word "endure." However, I think one of the ploys of the devil is to convince uninformed believers of a "pre-tribulation," free-pass rapture ticket, and they will just be beamed up and let the pesky unbelieving Jews deal with the anti-Christ. Nothing could be further from the Biblical facts. Needless to say, the pre-tribulation rapture deception is not the only issue facing those alive in the last generation. To get a real eye-opener account of Dr Finley's commentary, go [here](#), and you will be glad you read it.

**What about your money?** Everything I read leads me to think we are only a short time away from a "cashless" society... which, on the surface, has some favorable benefits. Underlying that, there are great losses of privacy and loss of control of your money. A cashless society will no doubt be

connected to a massive surveillance network (as in China, and being set up here in the US) and it will monitor your every movement and your entire financial activity along with all your personal health records and qualifications for receiving treatment and medication, and scrutinize your social activity... no place to hide. No buying or selling without "qualified status," and no going to just anywhere you please without filing a "flight

plan,” so to speak, and then your status rating will predetermine all your personal activity, with limitations of course. For example, no vaccine certified rating, no buying or selling, or any other globalist limited activity. Can you see where this is all headed... It’s coming to a neighborhood near you soon. And, by the way, like in China, there are rewards for ratting out your disobedient neighbors... even surrounding humans are watching you, especially if they are jealous or don’t like you.

These articles are included to help you get a peak at potential for concerns you may have.

**Closing on a Positive Note:**

### **Coming Out of Babylon**

If you are a believer in the God of Israel (Yahweh/YHWH), and you love Jesus/Yeshua, and keep your faith in Him, and keep your eyes on the truth in God’s word, you will be able to navigate through this very dangerous world... but don’t try to go it alone. Time is truly winding down to the “face off” between good and evil... the real Pandemic, is spiritual darkness, and only the light of Yahweh’s Word and the power of its truth (Which Yeshua prayed to the Father to sanctify his believers with) can save you, provided you allow the Holy Spirit to lead you “through the valley of the shadow of death.” The great deception is upon us, and its oncoming avalanche of wickedness and lawlessness that Paul warned the Thessalonians about, I think, is now plowing through our land. We are in a time of great spiritual warfare, and that is mainly the battle for truth and most all of it is how you process information and how you choose to act according to what you believe, and mainly if you choose to act as a Bible believing saint. The Scripture says, “My People perish for lack of knowledge.” The knowledge we need is found in the Word of God... if we say we “believe it,” then the only way we can demonstrate that we do believe it, is to obey it, without twisting it around to suit our “church’s teachings,” or trying to redefine it to suit today’s modern lifestyles. There is no middle ground. So our mission is to study the truth the Bible gives us and walk out its truth in our lifestyles.

One of the last things the Bible tells us is to, “[come out of her \(Babylon\) my people.](#)” Babylon is a place of confusion, unbelief, sin, corruption, indulgence, hedonistic pursuit, humanistic mind set, pagan idolatry, and rebellious attitudes towards Yahweh and His Word, and His people. For the most part, it is the modern sin-laden society we now live in, and we have become so accustomed to its debauchery that we don’t recognize its moral deterioration day by day. Since we can’t say “where” Babylon physically is as we speak, we can say “what” Babylon is; it is any system or argument, or lifestyle practice against Yahweh’s Torah instructions and His Messiah, Yeshua. You may not be able to come out of the undisclosed (as yet) physical Babylon, but you can choose to come out of spiritual Babylon. As it was

in the days of Noah and the flood, and as it was with Lot's family living in Sodom and Gomorrah, there were only a few saved out of the destruction... because they came out. It will be the same for both choices now... [those coming out will be saved](#), and those staying in will be destroyed. Make your choice today... for who knows if you or I will be here tomorrow.

***Now for the Aaronic Blessing: [Num 6:24-26 KJV]***

***24 YHWH bless thee, and keep thee:***

***25 YHWH make his face shine upon thee, and be gracious unto thee:***

***26 YHWH lift up his countenance upon thee, and give thee peace.***

Amen.. and Amen
